

Coral Sea *Lagoon Explorer*

Imagine a week of popper fishing and jigging some of the world's most remote coral atolls. You'll fly in via seaplane, direct to the reef to fish for massive Giant Trevally, Dogtooth Tuna, coral trout, spanish mackerel and all the other reef critters you'd expect in such a remote area. The fishing is nothing short of spectacular.

Trip Details

Join us in one of 2 spectacular locations, both chosen for their amazing variety of sportfishing, and suitability for fishing from our smaller centre consoles. Shoalwater Bay and Bugatti Reef are geographically very different, but both provide the same spectacular fishing and both in a very remote location. The fishing is simply awesome! You will be fishing from our 80ft mothership as well as from our 3 x 18ft sportfishing centre consoles, and our 25ft contender centre console.

The best part is you get to fly out there and meet us with all the boats set up ready to go. Fishing can also be done from the beaches of the islands and sand cays, where 50kg + GT's are quite a likely encounter from shore.

Dates available for 2009

Shoalwater Bay

31st Jan - 6th Feb
6th - 12th Feb
12th - 18th Feb
18th - 24th Feb

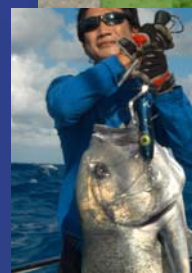

Bugatti Reef

30th March - 5th April
5th-11th April
11th-17th April
17th-23rd April

Trip Costs

Please contact our office for trip pricing details

The seaplane flights are ex Hamilton Island. We arrange all seaplane flights for you, but they are priced separately as prices vary depending on the distance of the reef from Hamilton Island. The price of your flight will be locked in at the time of booking, and we can assist with your other travel arrangements. Please just call for assistance.

Coral Sea *Lagoon Explorer*

Why you need to do a Coral Sea Dory Trip.

1) Our number one priority is providing you with simply the best fishing trip available. We aim to do this by using the latest technology in boats, tackle, techniques and equipment, combined with spectacular locations, outstanding customer service and great value for money.

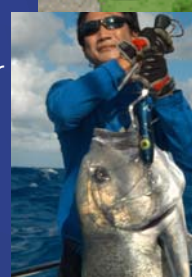

2) There is simply nothing like this trip. We are the only company that offers fly in access to remote submerged atolls in the middle of the ocean and then provides you an 80ft mothership and a range of 18-25ft guided centre consoles to fish from.

3) You'll fish be fishing the most spectacular GT fishing and Jigging locations. The reefs are so isolated, remote and pristine that they are home to massive numbers of fish and due to the lack of pressure there are a lot of big fish. The statistics speak for themselves:-

- Biggest GT on popper so far is 68.5kgs
- Most GT's in a week is 142
- In our first 18 trips to the Coral Sea Reefs, we have caught and released 27 GT's over 40kgs, and 36 dogtooth tuna over 50kgs.
- The biggest GT from the Coral Sea so far is 55kgs
- Double hookup on a 50kg GT and 100kg Dogtooth from an 18ft centre console both fish landed and released.

4) We are the most experienced GT fishing and deepwater Jigging charter operation in Australia. We are on the cutting edge of tackle and techniques. The manufacturers of the worlds best tackle choose to fish with us to test their gear.

5) We only fish each reef for 4 trips each year. This means that each reef receives minimal fishing pressure, and combined with our catch and release principles provides the basis for some simply unbelievable fishing action. When you visit a reef it is most likely that we will not have done a block of trips there for the previous year.

Coral Sea *Lagoon Explorer*

Likely Species

Giant Trevally

Spanish Mackerel

Dogtooth Tuna(Bugatti Reef only)

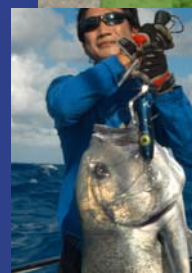

Coral Trout

Yellowfin tuna, Wahoo, Red Bass, Amberjacks, Green Jobfish, barracuda, bluefin trevally, diamond trevally, cod, rosy jobfish, red emperor, red throat sweetlip, painted sweetlip, long nose emperor and many many more reef species. This is some of the most amazing popper fishing, jigging and sportfishing available anywhere in the world.

We specialise in offering personalised service to small groups of 12 anglers in search of a truly unique fishing adventure. Our crew of 7 will ensure that your every need is catered for and make this a most memorable experience. Our expert crew and personalised service are something we are renowned for and very proud of.

You will fish some of most remote locations in the Coral Sea, and your adventure starts at Hamilton Island, where you will board a Cessna Caravan floatplane mid morning and fly direct to be fishing early afternoon on the first day at your chosen location.

Whether flying to Shoalwater Bay or Bugatti Reef, you will experience some of the best sportfishing and lurecasting imaginable. Both locations offer sensational fishing for GT's and both have a huge diversity of sportfishing options available. Bugatti Reef has some good jigging available for a huge variety of species, with some dogtooth encountered, but it is the prolific GT fishing and variety of other species that make this location special. Shoalwater Bay is just an amazing all round fishing location, there are no dogtooth at Shoalwater Bay, but the GT's, spaniards, coral trout, golden trevally and huge variety of species more than make up for this. There's even some good barra fishing at Shoalwater to top off the variety list.
