

# Coral Sea Ultimate Adventures

A long way out, in the remote Coral Sea  
There is a spectacular reef system awaiting you  
Isolated sand cays & crystal clear tropical reefs  
We will fly you out there via floatplane  
You'll land to see 6 of the best boats waiting to take you  
for the fishing adventure of a lifetime

## The Adventure Begins

This is a truly unique fishing adventure, there is absolutely nothing like this adventure available anywhere else in the world. Join us to visit Kenn, Wreck, Frederick, Marion, Flinders, Elusive and Jewell Reefs and the Diamond Islets in the Coral Sea. These reefs are located between 350-550 kilometres from the Australian mainland, off the central and northern Queensland coast, and are rarely visited by people. The Ultimate Adventures trips are the only trip type to access many of the locations on offer.

These reefs have, in the past, been largely inaccessible but visiting them is now a reality due to our range of purpose built boats and seaplane access. Our equipment, tackle, skippers, guides and our locations are simply as good as it gets. We specialise in offering personalised service to small groups of 10-12 anglers, and we take great pride in providing simply the best service available.

You will deep jig some of most inaccessible seamounts in the Coral Sea, or cast poppers for huge GT's in a beautiful shallow lagoon, all based from the comfort of our 80ft mothership, and fishing from our 2 x 36ft, 1 x 25ft and 2 x 18ft sportfishing boats. Your adventure starts at Hamilton Island, where you will board a Cessna Caravan floatplane, and be fishing the remote Coral Sea withing an hour of stepping off the plane.

## Why you need to do a Coral Sea Ultimate Adventure.

- 1)** Our number one priority is providing you with simply the best fishing trip available. We aim to do this by using the latest technology in boats, tackle, techniques and equipment, combined with spectacular locations, outstanding customer service and great value for money.
- 2)** There is simply nothing like this trip anywhere else in the world. We are the only company in the world that offers fly in access to remote submerged atolls in the middle of the ocean and then provides you an 80ft mothership and a range of 4 sportfishing boats from 18-36ft to fish from, while you are there.
- 3)** The fishing at the reefs we access is simply spectacular. Few people have ever even been to the reefs we visit, let alone fished there. The reefs are so isolated, remote and pristine that they are home to massive numbers of fish and due to the lack of pressure there are a lot of big fish.
- 4)** The combination of the 36ft sportfishing boats and the 18ft dories allow you to fish every environment at any given location. You can fish the very shallow lagoons for huge GT's on poppers or use the larger sportfishing boats to access remote seamounts for massive dogtooth tuna, wahoo and marlin.
- 5)** Everything you need for your trip is already onboard. Absolutley all the rods/reels and tackle you need is already onboard waiting for you. We only use the best Shimano gear(Stella's, Torsa's and Tiagra's) so you can simply arrive with a bag of clothes and let us take care of the rest.

## Package Prices

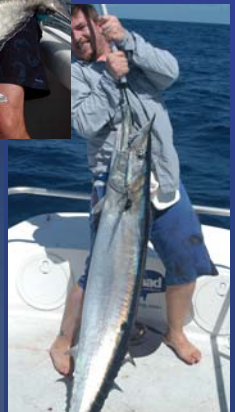

Our package includes 6 days fishing, comprising 5 full days and 2 part days fishing. Accommodation is in a shared air conditioned cabin aboard our 80ft mothership. The cost for for these trips is seperated into the trip cost and the floatplane cost, which varies between reefs, according to distance from land. We organise all of the plane flights for you, but the package price of your trip depends on which reef you visit. The standard trip cost is:-

Please call our office for pricing details

The Seaplane flights are all organised by Nomad Sportfishing, as part of your package, but the prices for seaplane flights to the various reefs we visit are listed below:

Jewell Reef trips are priced ex Lizard Island, as we cannot control flight costs on this route, but we can help you with booking flights to Lizard Island. These flights are generally a lot cheaper than the seaplane flights above. We can provide help with all travel arrangements, and can also provide assistance with all hotel bookings at Hamilton Island, or in Cairns.

Coral Sea Tackle Kit is \$400, please see the Coral Sea 2008 info sheet for details. Please see the Coral Sea 2008 info sheet for full details of inclusions/extras on trips. Fishing is shared between our 2 x 36ft sportfishers and our 1 x 25ft centre console. We take 4 anglers in each of the vessels each day. We also have our 2 x 18ft sportfishers on hand for use should they be required. A strict luggage limit of 20kg/person applies for the floatplane trip out to the reef(all trips). Guests requiring more luggage will need to send it to the vessel before departure from the harbour. Jigging and casting rods are all supplied and we have a range of top quality Shimano tackle to choose from.

15th - 21st October  
23rd - 29th October  
29th Oct - 4th Nov  
6th - 12th November

### Bligh Reef

24th Sept - 30th Sept  
1st-7th October

## Fishing on our boats

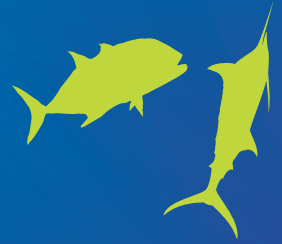

The key to your Ultimate Adventure trip is variety of fishing styles. As such you will be rotated throughout our range of vessels over the duration of your trip. You can expect to be fishing on any of our 18ft, 25ft or 36ft sportfishers. We generally start each trip using the 2 x 36ft and 1 x 25ft vessels on all trips with 4 anglers and crew on each vessel. But, for example, if a whole group of 4 anglers chose not to use one of the larger 36ft vessels, on any day, they could then choose to fish from our 2 x 18ft sportfishers, with only 2 anglers per vessel. We have an option to suite everyone, it just depends on what each group wants to do.

## Fishing Details by Reef for 2009

### Flinders Reef

Black Marlin fishing at it's best, and an excellent variety of species. Mixed in with this is amazing fishing action for big dogtooth tuna, giant trevally, wahoo and yellowfin tuna.

### Marion Reef

VARIETY - Dogtooth tuna, Giant trevally and Big Coral Trout are what this reef are famous for. There's also a whole host of other species available such as sailfish, red bass, green jobfish.

### Diamond Islets

This was the dogtooth tuna factory in 2007. We landed 31 doggies over 100lbs in 2 weeks fishing, with the biggest one around 90kgs. Plenty of variety of other species as well.

### Elusive Reef

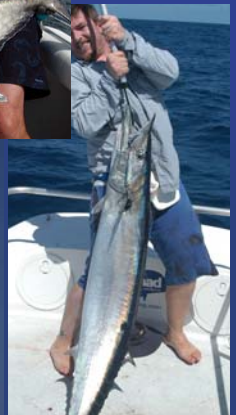

VARIETY - Amazing GT fishing and an incredible location. exceptional bluewater potential for doggies, wahoo and marlin, but the spanish mackerel, coral trout and GT fishing is incredible. This area is similar to the Bugatti Reef area we also visit.

### Jewell Reef

A stunning location, with every species imaginable in large numbers. Grander black marlin, spanish mackerel, coral trout, GT's dogtooth tuna, the list goes on. Great for anyone wanting variety in their fishing.

### Bligh Reef

One of the most remote reef structures on earth. This reef is a new one for 2009, and will produce lots of variety sportfishing for GTs, spanish mackerel, dogtooth tuna, and also the opportunity to target some giant black marlin.

## The Fishing

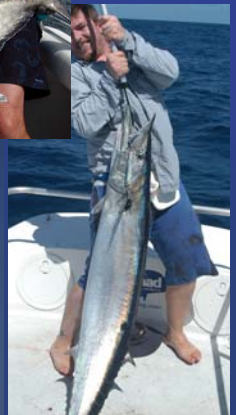

The Coral Sea is home to a huge variety of species, and we pride ourselves on specialising in catching all of them. The fishing is truly exceptional, and this is most likely one of the best places in the world to catch many of the species available.

Our trips generally target the larger sportfish that inhabit these waters and you can expect to see huge dogtooth tuna, giant trevally, red bass, wahoo, yellowfin tuna, sailfish, all the pacific marlin species, coral trout, jobfish and many many more. Depending on your fishing preference, we can advise you which reef is best for which species.

We provide all top of the range Shimano rods and reels on all trips, and all terminal tackle, lures and hooks are supplied on a user pays basis. You pay for only what you personally lose or use.
