Drive Outs are very similar to the Lagoon Explorer trips, with a focus on GT popper fishing and general sportfishing and lurecasting for species such as coral trout, red bass, spanish mackerel, longtail tuna and a whole range of other sportfish. However rather than flying to the reef guests drive out onboard our 80ft mothership. Anglers can enjoy the extraordinary fishing available in the Coral Sea, without the extra cost of floatplane flights to the reef. Your 6 nights onboard includes travel time to/from the reef, with 5 days of fishing. You'll board the mothership at the Mackay Marina in the evening and travel overnight to the reef. Arriving early the next morning, we'll unload the centre consoles and get you fishing as soon as possible. You'll spend the next 5 days exploring the reef, using our 2 x 25ft and 2 x 18ft centre consoles with 3 anglers per boat. Each angler rotates between the different sized boats from day to day depending on what you want to do. Your return to Mackay will be via overnight passage, arriving back at the Mackay Marina early the next morning. We cater for 12 anglers on these trips.

If you want to cast lures for big kingfish and experience the thrilling surface strikes and seriously tough fight from a big kingfish, then this is the trip for you. This trip is squarely aimed at lurecasting and jigging for New Zealand's mighty kingfish, however if you want to troll up a few striped marlin, or drop some soft plastics for some big snapper, this is easily achievable.

## Trip Details

Travel to Tauranga, on the Northeast coast of New Zealand, where you'll stay in a waterfront hotel and be picked up from the jetty each day by Captain Ben Pokaia, in our 8m customised sportfisher to be taken for a day of fishing action and excitement you'll long remember. The fishing grounds are within 30-90 minutes from the harbour, and there's a fishing option no matter what direction the wind blows from, giving you peace of mind when coming from overseas. Few places in the world offer such spectacular action for kingfish on surface lures, and it's the structure of the local reefs and islands that makes the kingfish of Tauranga so ideal to target on surface lures. Casting stickbaits or poppers will see you get connected with some of the world's biggest kingfish. The average kingie is around 15kgs in this area, but fish over 35kgs are commonly encountered. Snapper, striped marlin and blue marlin are also able to be targeted at certain times of year. Deepwater jigging for kings is also an option, and the kings of Tauranga love jigs just like kingfish anywhere. For more information on the range of options available for fishing Tauranga, please call us.
