

LAGOON EXPLORER

“ If you’re passionate about fishing - There is only one choice ”

PARADISE

For keen anglers, families
and corporate groups

The Lagoon Explorer charter is a 5-day/4-night expedition and accommodates 6 guests supported by 6 crew. Guests stay on-board the mothership Blue Martini and fish off the 3 privately guided centre consoles. The charter operates between Lizard Island and Port Douglas, fishing on pristine reefs such as Waining, Jewel, Escape, and Ribbon Reefs. These rich fishing grounds are home to a variety of species including reef fish, billfish, and pelagics. Guests can choose their fishing style with options for popper, soft plastics, jigging, trolling, and light tackle, all while tapping the invaluable local knowledge of their own private guide. The centre-consoles are the perfect platform for a fast-paced fishing adventure. If guests would like to tackle the wider waters outside the Reef, Black Magic is available for charter as an optional add-on.

GONE FISHING and snorkelling on the Great Barrier Reef

The fishing may be excellent, but there is so much more to this FNSF-Nomad charter. All guests will experience the unique Blue Martini hospitality, with a five-star chef and all meals included. The Blue Martini host is there to make sure everything runs smoothly plus there is a full housekeeping service. Families and groups on this blue water adventure can also choose to snorkel the azure waters of some of the best sites of the pristine Ribbon Reefs. In the months between June and September, the Reef is also a thoroughfare for migrating Humpback Whales and Whale Sharks, and guests could have the chance to marvel at these gentle giants breaching. Dwarf Minke Whales and schools of dolphins are also a common sight.

One of FNSF-Nomad's most popular side trips is the Coral Cay Experience. Blue Martini moors close to an isolated sand island and guests are served a five-star castaway dining experience on the shore - this is a luxurious adventure not to be missed.
